

Saipem: cyber-attack on its servers identified

San Donato Milanese (MI), December 10, 2018 - Saipem informs that today a cyber-attack on its servers has promptly been identified.

We are collecting all the elements useful for assessing the impact on our infrastructures and the actions to be taken to restore normal activities.

We are also in the process of notifying the report of the incident to the competent Authorities.

Saipem is one of the world leaders in drilling services, as well as in the engineering, procurement, construction and installation of pipelines and complex projects, onshore and offshore, in the oil & gas market. The company has distinctive competences in operations in harsh environments, remote areas and deepwater. Saipem provides a full range of services with "EPC" and "EPCI" contracts (on a "turn-key" basis) and has distinctive capabilities and unique assets with a high technological content.
